**ERIE COUNTY, NEW YORK –
URBAN COUNTY CONSORTIUM
ANNUAL PERFORMANCE REPORT
FOR
PROGRAM YEAR 2004**

HOUSING NEEDS ASSESSMENT

The U.S. Department of Housing and Urban Development recommends reiterating information on the housing and community development needs as part of the Annual Performance Report, so that the reader may analyze a jurisdiction's performance against the needs. Accordingly, the following summary information is provided from the County's 2000-2004 Consolidated Plan.

Estimated Housing Needs, 2000-2004

Determining the exact affordable housing need is difficult because the five-year consolidated plan utilized 1990 census data as the key data source. Since the Year 2000 Census will update the information the housing needs revealed in the consolidated plan are suspect. Nevertheless, the following table describes the housing "need" figures for the Erie County Consortium as obtained from the HUD 1990 Census Data Book.

**NUMBER OF LOW- AND MODERATE-INCOME
HOUSEHOLDS REQUIRING HOUSING ASSISTANCE NEEDS**

0-50% of Median Income	51%-80%	81%-95%	Total
14,095	5,528	1,852	21,475

Housing Affordability and Income Levels

According to the 1990 Census, there are 49,089 households in the Consortium with household incomes at or below 95% of the median income for Erie County. Forty-four percent of these households have housing problems.

Geographic Distribution of Minority and Low-Income Concentrations

Figures 1 and 2 reflect the areas within the Consortium having high concentrations of low- and moderate-income households and minority concentrations, respectively.

At-Risk of Homelessness

In general, “affordable housing” is when a household pays no more than 30% of its income for housing, including utility costs. There are **33,691 low- and moderate-income households in the consortium paying more than 30% of the household income for housing**, based on available data from the 2000 Census.

Overcrowding

According to HUD, as a percentage of all low- and moderate-income households, 3% of all renters and 2% of all owners live in overcrowded conditions. This translates into about 615 households.

Waiting Lists For Housing Assistance

The Erie County Department of Environment and Planning recently surveyed senior housing developments within the Consortium and determined that there were no vacancies and the housing developments had three months to two years waiting lists. Belmont Shelter Corporation has approximately 1,781 families awaiting assistance through the Section 8 program servicing the Consortium area. There are 34 families and 34 elderly households on the waiting list for public housing operated through the Lackawanna Public Housing Authority, and 270 families on the waiting list for public housing in the City of Tonawanda. The average length of waiting is approximately seven years.

Housing Needs of Homeless Persons

The data source used to describe the homeless housing needs in 2005 was the Erie County Homeless Alliance of Western New York. The Commission surveyed homeless shelters and transitional housing in Erie County. A point in time data collection system was used to determine the counts of the number of men, women, and children who are in emergency shelters in Erie County. The following key characteristics were found:

- The majority of the homeless populations are chronic substance abusers, seriously mentally ill, and veterans.
- More permanent supportive and non-supportive housing is needed.
- Most homeless shelter facilities are located in the City of Buffalo, while needs extend beyond the city limits.

Housing Needs of Seniors

The County of Erie estimates that there are 3,643 elderly persons in the Consortium in need of affordable rental housing. Sixty-nine percent of these elderly households are frail elderly persons.

Housing Needs of Persons with Mental Illness

In 1993, the Erie County Department of Mental Health established a Housing Needs Committee. Their task was to survey mental health consumers and service providers to assess issues, problems, and future direction. The survey focused on those individuals determined to be severely mentally ill. The Committee reached consensus on the highest priorities for development. They are:

- More supportive housing
- More permanent housing with stipends, including increased access to Section 8 vouchers
- Supports that may be necessary for individuals to stay in their homes, including flexible funding to broker supports and funding to pay security deposits
- Single-room occupancy housing
- Transitional and temporary housing
- Short-term crisis housing
- Housing for seniors, emotionally disturbed young adults
- Housing for homeless individuals with serious mental illness, both with and without co-occurring disorders

Housing Needs of Persons with Developmental Disabilities

The State of New York Office of Mental Retardation and Developmental Disabilities estimates that there is a need to create additional new housing to serve 60 individuals with developmental disabilities in Erie County. The housing should be single-family homes that provide supportive services to 6 to 8 persons per home.

Substandard Units

The County estimates that 30% of the housing units in the Consortium communities are substandard. This estimate is based on municipal building inspections in the Consortium and the Erie County Department of Environment and Planning's housing inspectors.

Rental Housing

Fair Market Rents (FMRs) are estimates of the rent plus utilities that would be required to rent privately owned, decent, safe, and sanitary rental housing of a modest nature with suitable amenities. The rent figures do not necessarily reflect current asking rents, but rather the upper limits of rents that can be used in the negotiations for Section 8 contracts. The following table shows the current FMR levels as established by HUD for 2004.

FAIR MARKET RENTS			
Size	FMR	Size	FMR
STUDIO	\$535	4BR	\$ 899
1BR	\$542	5BR	\$1,034
2BR	\$648	6BR	\$1,169
3BR	\$806		

Ownership Housing

According to the 1998 Money Magazine "Best Places To Live" rankings, Erie County was viewed as having the second most affordable housing of all large metropolitan areas located in the northeastern sector of the United States. The median housing price was \$84,000 as compared to \$110,590 in the northeast sector.

A general estimate comparing median price to Census adjusted household income figures suggests that approximately 30% of all households residing in the Consortium can afford to purchase a median-priced house.

Assisted Units

In 2004 there were approximately 1,404 assisted housing units within the Erie County HOME Consortium. This included 584 federally assisted units for the elderly and 822 federally assisted family units. The majority of those assisted are very-low income white households.

Lower-income households are additionally assisted by the City of Lackawanna Housing Authority, which manages 491 conventional public housing units, and the City of Tonawanda Housing Authority, which manages 264 public housing units.

Belmont Shelter Corporation contracts with the Erie County PHA Consortium for the management of the Consortium's Section 8 rental assistance program. Belmont currently assists, under Section 8 contracts, 975 households within the Erie County Community Development Block Grant Consortium.

Facilities and Services for the Homeless and At-Risk, and Those with Special Needs

In 2004, Erie County had 1,819 beds/units for the homeless and at-risk population. Approximately 90% of the units were located within the boundaries of the City of Buffalo. Most, if not all, of the meal programs for the homeless and near homeless are also located in the City. All emergency shelters in Erie County are at or near capacity and others maintain a waiting list.

ANNUAL PERFORMANCE INDICATORS

Resources Made Available within the Erie County Consortium

As noted earlier, an estimated 12,312 housing units within the Erie County HOME Consortium are in need of rehabilitation. Since 1990 a substantial amount of CDBG and HOME funds were allocated toward housing rehabilitation and approximately 1,512 (108 units per year) assisted during this time period. The demand for aid, however, far out paces funding available. The sluggish economy, age of housing stock, and increasing construction costs are all factors which combine to create a high need for funding assistance.

Affordable houses for first time home buyers remains out of reach to many low- and moderate-income households within the Consortium. Although Erie County ranks as one of the most affordable housing areas in the northeast, a low percentage of Consortium households could afford to purchase a home. Thus, the need for and popularity of the Erie County, and the Towns of West Seneca and Hamburg First Time Home Buyer Program is ever present. In 2004, 64 households purchased homes through the above programs, utilizing \$424,000 in HOME funds.

A related factor to increasing the supply of affordable houses in the area is the placement of senior households into senior citizen complexes and out of their present homes. This growing age group within Erie County occupies numerous smaller homes which can be affordable to the area's younger first time home buyers.

Unfortunately, the complexity, competitiveness for funding assistance, and high cost of building senior housing, limits the available units that can open up during any given year. This has a ripple affect on the supply of affordable housing.

The following tables show the various resources budgeted for rehabilitation/home ownership activities within the Consortium in the 2004 Program Year. This figure does not include funds unlinked to a county program or project. The total amount of County funds budgeted in 2004 for housing programs was \$2,309,789. This includes program delivery costs.

Non-profit service providers, the City of Lackawanna Housing Authority, and other organizations also received federal and state funds for housing programs. These funds flowed directly to the various organizations to benefit Erie County residents, contributing directly to the overall affordable housing delivery system.

The following information notes total units assisted and dollar amounts expended by the Lackawanna Housing Development Corporation and Southtowns Rural Preservation Company in 2004.

Investment of Available Resources

The 2004 Annual Goal for the various housing programs in the 2000-04 Consolidated Plan indicated an accomplishments target of assisting 158 households through the various CDBG and HOME housing rehabilitation and first time home buyers programs.

The following table illustrates the County's success in meeting those targets:

Type	Annual Goal	Actual Households Assisted
County Rehab	108	111

County First Time Home Buyer	45	64
County Rental Rehab	5	0
<hr/>		
TOTALS:	158	175

The County continued to assist households in 2004 through water/sewer tap-in (7 households) and Erie County First Time Home Buyer – Targeted Programs (13 households). In September 2001 the Village Center Revitalization Program was initiated by the Erie County Executive. An important component of this three-year pilot effort was the decision to target 40% of all housing program monies to villages, hamlet centers, cities, and the Town of West Seneca. This was recognition that the housing stock in these areas was older and that many neighborhoods had a high concentration of low- and moderate-income households. Thirty-nine units were assisted under this effort.

The previous paragraph notes the First Time Home Buyer – Targeted Program. This was initiated in December 2000, and extended in 2004 via a second contract with HSBC Bank and the Federal Home Loan Bank of New York. It is a mortgage rate buy-down program and targeted to first time home buyers interested in purchasing a house in Erie County communities that currently have a lower average household income than the County as a whole. In 2004 seven households were assisted under this effort.

An additional housing project identified in the 2004 Action Plan pertained to housing counseling services. This project/service was carried out by the Belmont Shelter Corporation. The Action Plan's goal was to assist 400 households within the Consortium in various matters relating to home ownership, mortgage counseling, and other housing matters.

The actual number of households assisted by Belmont in 2004 was 734.

Expenditures: The next table shows that \$1,419,336.01 was expended for completed units in 2004. An additional \$440,904 has been expended for housing projects currently underway. This information is for non-CHDO cases only.

Qtrly Report 1_01_05 to 3_31_05

Other Actions Undertaken

This section describes the County's and Consortium municipalities' efforts in carrying out other actions during the reporting period. Emphasis is placed on actions taken relative to public policy, intergovernmental cooperation, and affirmatively furthering fair housing.

<u>ITEM</u>	<u>ACTIVITY</u>	<u>STATUS</u>
1	Implement HUD \$1.00 Home Program in Erie County.	In 2004 the \$1.00 home purchased by Belmont Shelter Corp. was rehabilitated and sold to a low-income household.
2	Participate in various affordable housing open houses, seminars, and other outreach programs to promote various County housing programs. Brochures and information packets are updated annually.	Examples of these activities include WNY Housing Expo in April 2004, Affordable Housing Alternatives for Individuals with Disabilities in April 2004, Minority Homebuyers Seminar in February 2005, and Homeownership for Public Housing Tenants in March 2005.
3	Participate in the Erie County Fair Housing Partnership, Inc.	The Partnership two workshops for Realtors and housing counselors on predatory lending issues and affordable housing programs.
4	Promote inclusion of affordable housing elements into local master plans.	In 1998, Erie County allocated \$750,000 for preparation of municipal master plans. One of the conditions to receiving the funds was that the local government must include an affordable housing element into their plan. In 2004 the Town of Brant completed their plan, and the Town of West Seneca is completing their effort. This pertains to Consortium communities only.

<u>ITEM</u>	<u>ACTIVITY</u>	<u>STATUS</u>
5	Member of the Homeless Alliance of Western New York. The Alliance is active in assessing the homeless needs in Erie County.	The Alliance provides the data required for the Erie County Consolidated Plan Continuing Care/Gap Analysis and coordinates agency submission of applications for HUD Supportive Housing Program and Shelter Plus Care Program. The Alliance started the Prism Project which involved a one-day count of the homeless population in Erie County and a series of workshops on the needs of the homeless in Erie County.

Public Housing Improvements

In 2004 there were two public housing authorities within the Consortium, being the Lackawanna Housing Authority, and City of Tonawanda Housing Authority.

The Lackawanna Municipal Housing Authority (LMHA) owns and operates the following:

Baker Homes	-	271 units (families and seniors)
Gates Homes	-	126 units (families and seniors)
Parkview Towers	-	94 units (seniors)

The complexes owned and operated by the Tonawanda Housing Authority are:

Colin/Kelly Complex	-	150 units
Arthur Albright Complex	-	64 units
Jacob Guzzett Senior Apartments	-	50 units

During this reporting period, the LMHA completed the exterior and interior renovation work at Gate Homes. LMHA obtained the financing to do lead-based paint abatement along with other minor renovation work in 93 of the Baker Homes Units. The tenants of Baker Homes provided input in determining the scope of renovation work for Baker Homes.

The Tonawanda Housing Authority operates with State funding assistance. There were no modernization programs for this reporting period.

Public Housing Resident Initiatives

The Lackawanna Municipal Housing Authority continued to operate its Educational Resource Center in 2004. Public housing residents continue to use the center to develop life skills, academic enhancement, and preparation for employment. The Resource Center also provides programs for seniors and youth that include computer training, numerous activities, and events. The Housing Authority employs residents to work with these and other programs.

LMHA's staff, board, and residents of Lackawanna worked together to form a not-for-profit corporation to expand on the services of the Education Resource Center. The Lackawanna Municipal Housing Authority Youth and Adult Education Resource Center, the name of the newly incorporated organization, will do business as the Tears and Jones Youth and Adult Educational Resource Community Center and will serve the City of Lackawanna, with priority on the 1st Ward residents.

Lead-Based Paint Hazard Reduction

Programs established by the County to address the issue of lead-based paint are administered through the County's Department of Health, Department of Environment and Planning (DEP), and the Erie County Lab. The programs focus on education, screening for lead in children, inspection, and removal of lead-based paint within households.

The Department of Health educates the public on the hazards of lead-based paint through public service announcements on radio, television, and newspapers. Information is also distributed by the County to schools and libraries.

Screening of children for lead-based paint is done through the County's Health Department Lab facilities. The Health Department also provides caseworkers to work with families whose children's blood lead level is above normal.

DEP continued to educate homeowners of the hazards of lead-based paint through the Department's Housing Rehabilitation Program. Pamphlets are distributed to homeowners that participate in the Program. Financial assistance is also provided to assist low- and moderate-income homeowners pay for the removal of lead-based paint.

In addition to the training sessions, Erie County has engaged Stohl Environmental Services to conduct risk assessments and has obtained certification for a housing inspector to conduct risk assessments and clearance tests.

Currently, Erie County intends on continuing the training of home improvement contractors and was in full compliance with the federal lead regulations during the reporting period.

Lead Connections Program

Funded through a U.S. Department of Housing and Urban Development (HUD) Office of Healthy Homes and Lead Hazard Control grant. Joint initiative with several business organizations to help area residents to create and maintain lead-free housing by providing free training and supplies needed to rid homes of lead paint. Homeowners are provided all the equipment needed to safely make lead-based paint related repairs. They receive quality paint, scrapers, tarps, and brushes, along with free rental of equipment such as HEPA filter vacuums if needed.

In 2004, DEP's First Time Home Buyer Program referred seven (7) families to the Lead Connections Program to address peeling paint in their homes with the potential for lead-based paint hazards. Also, brochures for the Lead Connections Program are distributed at every workshop held for potential homebuyers.

Actions to Affirmatively Further Fair Housing

Reference should be made to the "Other Actions" section of this report (see Pages **13, 14**) for a further description of activities underway within the Consortium to further fair housing. This shows the County's efforts to carry out the recommendations contained in the 1996 Impediments to Fair Housing Study. In addition, Attachment E includes the Consortia summary of efforts to implement the Impediments Report.

During 2004 the Erie County CDBG Program provided \$25,000 to Housing Opportunities Made Equal (HOME) to provide fair housing counseling and mediation, and \$24,975 to Belmont Shelter Corporation for housing counseling activities.

The following outlines key accomplishments for both organizations:

There were 72 assisted at the Claire Court Complex in the Town of Hamburg, 33 senior units at Trinity Park in the Town of Aurora, and eight units at Seneca Pointe in the Town of West Seneca. All units were in compliance with HOME requirements

H. **Annual Performance Report:** HOME Program: Reference should be made to Attachment A. This includes HUD form 40107, which contains information relative to program income, minority and women business enterprise participation, and minority owners of rental property.

I. Analysis of the Extent to Which 2004 HOME Funds Were Distributed Among Different Categories of Housing Needs Identified in the 2000-04 Consolidated Plan:

1. OBJECTIVE H-1: Use HOME funds to assist 225 moderate-income households, obtain entry to the home ownership market. Annual Goal: 45 households
 - 64 households assisted in 2004 – \$424,000 disbursed, excluding program delivery costs
 - 279 households assisted since 2000.
2. OBJECTIVE H-2: Assist 540 owner-occupied housing units repair and improve their housing units. Annual Goal: 108 households
 - 16 households assisted with HOME funds in 2004 – \$204,094 disbursed, excluding program delivery costs. (Note: 96 units were assisted through the CDBG Program in 2004).
 - 129 households assisted with HOME funds since 2000. (Note: 494 units have been assisted through the CDBG Program since 2000).
3. OBJECTIVE H-4: Use CHDO and state funds to develop rental housing for 50 low-income households, 100 extremely-low-income households, of which 25 units will be for special needs population. Annual Goal: 30 units, 10 low-income households, and 20 extremely-low-income households.
 - There were 0 units assisted with HOME funds in 2004. Seventy-seven units for low-income, and 11 units for extremely-low-income have been assisted since 2000.

Community Development Block Grant Program (CDBG)

The use of CDBG funds for priority needs, goals and specific objectives identified in the 2000-04 Consolidated Plan are strongly related to the way the funds were distributed among the different categories of the grant: community projects, housing, and economic development. Per the Memorandum of Understanding with the 34 participating municipalities, 27% of the money in the CDBG grant goes to community projects, an additional 27% to housing, and the other 27% to economic development. The remaining 19% is allocated to planning projects and administration. As part of the scoring and project evaluation process, all community projects must benefit low- and moderate-income persons and/or eliminate or prevent slums and blight. It should be stressed that the percentage allocation noted above may vary from year to year. This insures that a timely expenditure rate occurs. For example, economic development projects may be slow in developing thus warranting a one or two year re-allocation of funds from the economic development pool to community projects.

A. **Housing:** Reference should be made to Pages 6-17 of this report for information on the CDBG housing programs and the Consortium's performance in 2004.

G. Economic Development – Commercial Center Improvement Program (CCID)

In 2004 the Village of Springville, hamlet of Eden Center (Town of Eden) and hamlet of Holland Center (Town of Holland) participated in the above program. A primary purpose of the CCIP is to improve the appearance of Village/hamlet centers by providing matching grants to eligible businesses. The grant monies are combined with local resources to improve façades and other basic exterior needs of target area buildings.

Erie County makes available to participants a project architect that prepares plans and specifications thereby insuring consistency and appropriateness of design.

The Program was identified in the 2004 Action Plan and identified a goal of assisting 10 businesses. The following lists by community the status of the Program.

Area	Pre-Plan Stage	Approved Plans	Work Underway	Completed	Total
Village Center – Springville	5	2	1	0	8
Holland Center	0	3	0	1	4
Eden Center	6	2	0	0	8

H. Performance Measurement System – Status:

The Erie County Community Development Consortium currently utilizes a system for measuring accomplishments toward achieving specific program objectives. Although not as comprehensive as the system described in the United States Department of Housing and Urban Development Notice CPD-03-09 dated September 3, 2003, it does provide an effective evaluation system.

Page 43 provides an excerpt from the 2000 - 2004 Consolidated Plan. It describes specific program objectives by priority need category and identifies an annual goal/output for achieving the objective.

Page 44 of this report includes a checklist for identifying which elements of a performance measurement system the Erie County Consortium is presently utilizing. Improvements to the performance measurement system need to occur in the area of proposed outcomes.

The Erie County / Town of Hamburg HOME Investment Partnership Consortium have prepared a 2005 - 2009 Consolidated Plan. The document was approved by HUD on April 15, 2005. A key element of the Plan is a performance measurement system that includes use of the “outcome” category. It is expected that the system will be utilized during the next five-year period.

The 2005 - 2009 Consolidated Plan is being converted into an on-line system by utilizing the Consolidated Plan Management Tool. It is expected that all future Action Plans and CAPER reports will be prepared via the CPMP tool. The system provides an excellent resource to track program performance under a measurement system.

Table 1

Summary of Specific Housing and Community Development Objectives

Applicant's Name:	Erie County, Towns of Hamburg and West Seneca, New York
Priority Need:	HOUSING
Specific Objective Number H-1	Use HOME and state funding programs to assist 225 moderate-income households, obtain entry to the homeownership market. ANNUAL GOAL: 45 HOUSEHOLDS

Specific Objective Number H-6	Use ESG funds for supportive services and operational expenses for existing homeless housing and services in the Consortium. ANNUAL GOAL: 30 HOMELESS INDIVIDUALS AND FAMILIES

APPENDIX C

CHECKLIST

The performance measurement system should include or describe the following items:

- ☒ Long-term (multi-year) goals/objectives
- ☒ Short-term (annual) goals/objectives
- ☒ Expected units of accomplishment upon completion of project/activity
- ☒ Actual units of accomplishment upon completion of project/activity
- ☒ Expected units of accomplishment during each Program Year upon completion of project/activity
- ☒ Actual units of accomplishment during each Program Year upon completion of project/activity
- ☒ Aggregation of actual units of Program Year accomplishments to short-term and long-term numeric goals/objectives
- ☒ Outputs resulting from HUD funding are shown separately
- ☐ One or more proposed outcome(s) ☐ Yes ☐ No
If so, which indicator is used?
- ☐ One or more actual outcome(s) ☐ Yes ☐ No
If so, which indicator is used?

ASSESSMENT OF ANNUAL CDBG PERFORMANCE

The 2004 Program Year was a very productive one for the Erie County Consortium. Highlights of the accomplishments are noted below as well as a description of important topics to pursue in future years.

A. HOUSING:

Accomplishments

- The waiting list for the homeowner rehabilitation program was revised in December. Heretofore it had been a first-come/first-served system. This resulted in many houses being improved that did not reflect true problem cases nor addresses within older neighborhoods having a high concentration of dilapidated residential units. Each application is now reviewed against a series of criteria including household income, age of structure, age of household head, location, nature of needed improvements, and call date. Greater weight is attached to the income, age of structure, and location of home. The system has been in place 4 months and a greater number of active cases are being seen in older target neighborhoods within the Cities of Lackawanna and Tonawanda, as well as the Village of Depew.
- The IDIS report entitled Program Year 2004, Summary of Accomplishments indicated that 195 households were assisted through the CDBG housing programs. Of these 147 or 75% had incomes less than 50% of the County median for their household size.
- Greater efforts occurred in 2004 to coordinate housing programs of the Lackawanna Housing Development Corporation, Southtowns Rural Preservation Corporation, and the Tonawanda Community Development Corporation. The above organizations assisted 29 families rehabilitate their homes and purchase 2 throughout the Consortium area. This was achieved independent of federal CDBG monies. In addition, a meeting was held with representatives from the United States Department of Agriculture Rural Development Office to better understand their housing assistance programs. Referrals now occur regularly between the Ellicottville office and the Urban County, thereby insuring quicker access to housing rehab dollars for qualified households.

Future Items

- The 2005-09 Consolidated Plan identifies two target areas in the Cities of Lackawanna and Tonawanda. It is expected that focused outreach will occur in 2005 to inform residents about the Consortium's various housing programs and encourage a more concentrated participation level by families residing on specific streets.

B. COMMUNITY PROJECTS:

Accomplishments

- Sidewalk improvement in low/moderate income neighborhoods was an activity type that saw a substantial amount of effort in the 2004 Program Year. Four sidewalk projects were completed and utilized \$354,721 in CDBG monies. The projects were located in the following areas:
 - < Village of Depew: Main Street Neighborhood
 - < Village of Lancaster: Northwest Neighborhood
 - < City of Tonawanda: Clinton Park Neighborhood
 - < Town of West Seneca: Savona Street
- The Village Center Revitalization Program was underway in 2004. The Circuit Rider efforts of Stuart I. Brown Associates proved very beneficial in insuring project implementation. The following VCR projects were active in 2004:
 - < *Town of Holland: Commercial Façade Improvement Program*
One business was assisted in 2004. Three others are underway with improvements to their hamlet structures.
 - < *Village of Springville: Façade Planning/Design*
The design services of Clinton Brown Architects are being utilized to assist approximately 8 businesses obtain appropriate façade concepts and building improvement specifications.
 - < *Village of Springville: Public Parking Lot Improvements*
The Village has completed a property survey for the current municipal parking lot. This is the first step in moving the lot redesign project forward.
 - < *Village of Gowanda: Streetscape Improvements*
\$149,683 was disbursed in 2004 for Streetscape Improvements in the Village Center area.

C. ECONOMIC DEVELOPMENT:

See Pages 37 to 42. Also refer to pages 41 and 42 for information concerning the annual performance of the Consortia Commercial Center Improvement Program. The latter program is expected to expand to the Villages of Angola and Gowanda in 2005.

D. FINANCIAL REPORTING:

Reference should be made to CDBG Financial Summary Report included as **Attachment C** to this CAPER.

Accomplishments

- During the 2004 Program Year \$5,850,148.34 was expended through the CDBG Program, of which \$650,177.12 was for Planning and Administration. Of the remaining \$5,199,971.22, 98.98% was expended to benefit low- and moderate-income households. This compares to the \$4,442,040.45 expended in 2003, with \$893,447.75 in Planning and Administration, and the remaining \$3,548,592.70 expended for 97.46% of low- and moderate-income households.
- Federal regulations permit up to 20% of all expenditures within a Program Year to be utilized for planning and administrative activities. In 2004 the Consortium utilized only 10.31% for such purposes.
- As of March 31, 2005 the Consortium had 1.18 times the 2004 grant award available for expenditures. This is below the 1.5 times standard defined in the federal regulation governing the CDBG Program. The figure as of January 31, 2005 was 1.45% (Timeliness Test).

PUBLIC REVIEW PROCESS

The draft Consolidated Annual Performance Report (CAPER) will undergo a public review process. The latter will include a direct mailing of the draft report to all Project Selection Committee Members within Erie County and members of the Coordinating Committee. A public notice regarding the availability of the document was published in the Buffalo News and The Challenger on June 10 and June 8, 2005, respectively. A public hearing will be held on Thursday, June 23, 2005 at 9:30 A.M. in Room 1004 of the Erie County Rath Building. The draft CAPER is also available on the Erie County Web Page for public review.

SECTION 3 REPORT

Reference should be made to HUD FORM 60002 - Economic Opportunities for Low- and Very-Low Income Persons In Connection with Assisted Projects. The document is included as **Attachment D**.

Integrated Disbursement Information System (IDIS) Reports

The following reports were generated in the HUD IDIS Program and are available for public review at the office of the Erie County Department of Environment and Planning, Planning Division, Edward A.
